

Islamic Republic of Afghanistan
Da Afghanistan Breshna Sherkat
Project information

Name of project	The ETAP software is used to design and estimate the power system (substations and transmission lines).	
Location of project	Province: Kabul	district:
Total cost in USD	\$ 91,398	
Funded by:	World Bank	
Entrepreneur	ETAP Group of Companies	
Date	The contract end date: 31/05/2017	The contract start date: 24/05/2017
Project Type	<input type="checkbox"/> Transitional <input type="checkbox"/> Distributive <input type="checkbox"/> Productive	
Total project capacity	Design of substations and transmission lines	
Available mode	<input type="checkbox"/> Planned <input checked="" type="checkbox"/> Completion and operation <input type="checkbox"/> Under work <input type="checkbox"/> Designed	
The amount of work (percentages)		
Source of production	<input type="checkbox"/> Diesel <input type="checkbox"/> Windy <input type="checkbox"/> Sunny <input type="checkbox"/> hydro <input type="checkbox"/> Charcoal <input type="checkbox"/> Gas <input type="checkbox"/> imported	
Beneficiaries	Engineering Departments	
Project effects		
Brief description	The ETAP software was chosen by the Fluengrate Advisory Firm, which was signed by ETAP and General Directorate to purchase Software. Up to now, Breshna has sent a number of qualified engineers to teach this software to Delhi and Ganah.
